Made in Milton Keynes

International Ultrasonic NDT Manufacturer

Sonatest Ltd is one of the most respected suppliers of ultrasonic non-destructive testing (NDT) instruments in the world. They have sold directly to 116 countries in the last 18 years with exports accounting for 85% of UK production. Sonatest currently has over 110 Distributors and Agents, operating in 77 countries, including 25 distributors in North America.

Their products are used by some of the world's leading companies such as Boeing, Airbus, Shell, Eon, Network Rail and many others. Within their manufacturing and safety processes these companies, along with many others, rely on Sonatest to deliver reliable, safe products and services.

Choosing Milton Keynes

Milton Keynes has a varied cross section of businesses, which means the opportunity for all to collaborate and support each other is rich, instead of a city known for one particular type of industry with limited prospects. Milton Keynes' geographical location and infrastructure is also well positioned and designed to attract business from much further afield, stretching the market and business opportunities even further.

“Our operating cost in Milton Keynes is low and it is easy to reach airports, railway stations and potential customers without too much difficulty.”

Working with Partners

We are in close connection with local institutions and look forward to more cooperation with them.”
